2023 Performance Highlights

Markaz's AUM at KD 1.212 billion in 2023

Total Revenues for 2023 of KD 26.32 million

The management fees and commission have amounted to KD 8.01 million for 2023

Kuwait, 14 February 2024 - Kuwait Financial Centre "Markaz" (KSE: Markaz, Reuters: MARKZ.KW, Bloomberg: MARKAZ: KK) reported its financial results for 2023 with a Total Revenue of KD 26.32 million, as compared to KD 18.80 million in 2022, led by gain from the sale of international and GCC real estate investments. Net Profit attributable to shareholders was KD 4.15 million, compared to KD 2.86 million in 2022 and Earnings Per Share was 8 Fils for the year ended 31 December 2023.

Mr. Diraar Yusuf Alghanim, the Chairman stated: "During the year 2023, the GCC Economies witnessed huge development driven by the momentum in Saudi Arabia and the UAE. The MSCI GCC index increased by 7.7% in 2023. In the context of the national economy, the IMF anticipates 2.9% real GDP growth in 2024, underpinned by attractive oil market dynamics. Inflation is expected to remain relatively subdued.

Throughout the year, the global economy encountered significant challenges due to the effects of escalating inflation, rising interest rates and the prolonged war in Ukraine. The outbreak of war in the Middle East, and the cooling of the US-China relationship, further intensified supply chain constraints, and global GDP growth in 2023 declined to 3.1% compared to the previous year (World Economic Outlook January 2024 edition). On the other hand, the asset management sector is experiencing a data-driven transformation led by artificial intelligence. By generating superior insights, artificial intelligence supports decision-making, constructing investment portfolios, and enhancing risk management. This opens doors to a new approach to alpha generation and a future where asset management is dependent on leveraging the power of data."

Mr. Ali H. Khalil, CEO stated: "Markaz's Asset Management fees for 2023 were KD 7.17 million as compared to KD 10.60 million for the previous year. Investment Banking and Advisory fees for 2023 were KD 0.84 million as compared to KD 0.67 million for 2022, an increase of 25.4%. GCC real estate markets showed improvement, with a backdrop of higher oil prices and economic growth initiatives across the region, resulting in firmer rental and occupancy rates. As a result, our Net Rental Income was KD 2.19 million. From an Asset Management perspective, Markaz Assets Under Management (AUM) increased by 5.03% to reach KD 1.21 billion as of December 31, 2023.

Although market concerns are likely to continue well into 2024, the Markaz approach to risk adjusted investment decision making will well serve its corporate, institutional and high-net-worth clients. A deep understanding of our client's financial objectives has underpinned Markaz's success over the last 50 years, especially during uncertain market conditions. As M&A favourable conditions return, the Investment Banking team is well positioned to advise on those transactions and also complex restructurings, listings, and IPOs. The real estate sector is expected to offer promising opportunities due to regional demographic and economic reforms, benefiting our real estate division. Markaz's adaptable business strategy and dedicated focus on client goals position us to capitalize on emerging opportunities in asset management and investment banking.
